Industrial Safety Guardrail**“Stop Fork Encroachment”**

Stop fork encroachment with **NOTCHGUARD®** industrial guardrail. This unique industrial safety rail helps prevent accidental damage to products, controls and materials stored in defined storage and holding areas.

Standard industrial guardrail is designed like road guide rail. The road safety rail is spaced at bumper and fender height to accommodate cars and trucks. **NOTCHGUARD®** bottom rail is installed to prevent the forks attached to a lift truck from protruding through the rail and causing product damage. Standard forklift industry safety guidelines say the forklift operator should travel with the forks in the lowest possible position. Operators conforming to these guidelines travel with the forks 6" to 8" off the ground.

NOTCHGUARD® barriers help prevent these forks from encroaching product stored on the other side of the rail.

NOTCHGUARD® safety rail is easy to install with common tools such as wrenches, sockets and hammer drill. All standard fasteners are included, even the floor anchors and simple installation instructions are included with each order.

NOTCHGUARD® uses the sturdiest posts in the industry. Each post is manufactured from 5" x 5" square tubular metal welded to a 10" x 10" baseplate. Each rail is designed to assure structural stiffness to meet the 10,000 lb. at 4 mph breakthrough rating when installed at proper concrete depth.

All rails and posts have a safety yellow powder coat finish.

AVAILABLE SIZES OF

NOTCHGUARD® GUARDRAIL

Model #	Size
NG-10R	10 ft. Rail
NG-9R	9 ft. Rail
NG-8R	8 ft. Rail
NG-7R	7 ft. Rail
NG-6R	6 ft. Rail
NG-5R	5 ft. Rail
NG-4R	4 ft. Rail
NG-3R	3 ft. Rail
NG-2R	2 ft. Rail

Nominal rail length dimension is from center of post to center of post.

AVAILABLE SIZES AND CONFIGURATIONS OF **NOTCHGUARD®** POSTS

Model #	Size/Description
GS-SRP	5" x 5" Single Post, 18" high, 12" rail height
GS-DRP	5" x 5" Double Post, 44" high, 42" rail height
GS-LOB	Lift out brackets (Pair)

Please sketch your layout below. Beside each rail, note dimension and mark "D" for Double rail, "S" for Single rail or "L" for Lift-Out bracket. Layout will be calculated with standard rail lengths of 2, 3, 4, 5, 6, 7, 8, 9 or 10 feet. We will respond within one business day with job and freight pricing. Should you need assistance with the layout, please call 1-800-850-0428.

GUARDSMITH®

Industrial Safety Guardrail

Also available:

DISPLAYGUARD® electronic industrial safety display combines a protective steel guardrail with a highly visible computer-directed electronic display that can be read from 200 feet.

GUARDSMITH® industrial guardrail is designed to withstand 10,000 lb. force at a 4 mph breakthrough rating when installed at the proper concrete depth.

GUARDSMITH® guardrail uses external mounting fasteners that pass completely through the 5" x 5" post and rail bracket to assure maximum structural strength and integrity.

GUARDSMITH® guardrail is easy to install with common tools. All standard fasteners and floor anchors are included with each order.

GUARDSMITH® can tailor fit your application with single or double guardrail as well as post protectors and bollards.

AVAILABLE SIZES OF GUARDSMITH® GUARDRAIL

Model #	Size
GS-10R	10 ft. Rail
GS-9R	9 ft. Rail
GS-8R	8 ft. Rail
GS-7R	7 ft. Rail
GS-6R	6 ft. Rail
GS-5R	5 ft. Rail
GS-4R	4 ft. Rail
GS-3R	3 ft. Rail
GS-2R	2 ft. Rail

Nominal rail length dimension is from center of post to center of post.

AVAILABLE SIZES AND CONFIGURATIONS OF GUARDSMITH® POSTS

Model #	Size/Description
GS-SRP	5" x 5" Single Post, 18" high, 17" rail height
GS-DRP	5" x 5" Double Post, 44" high, 42" rail height
GS-LOB	Lift out brackets (Pair)

All rails and posts have a safety yellow powder coat finish.

EXTERIORGUARD® includes external, galvanized mounting fasteners that pass completely through the 5"x5" post and

EXTERIORGUARD® has a special powder coating that has successfully passed rigorous salt spray testing to ensure a corrosion resistant product.

Nominal rail length dimension is from center of post to center of post.

A diagram of a vertical container, possibly a column or a pipe, with a yellow background. The container is divided into several horizontal layers. The top layer is white with horizontal lines. Below it is a yellow layer. Then another white layer with horizontal lines. This is followed by a yellow layer. Then another white layer with horizontal lines. The bottom layer is yellow. On the left and right sides of the container, there are small black dots. On the left side, there are four dots in the white layers and one dot in the bottom yellow layer. On the right side, there are four dots in the white layers and one dot in the bottom yellow layer.

All rails and posts have a safety yellow powder coat finish.

*Exteriguard®
uses a high tech
safety yellow
powder coating for
each rail and post.
This coating has
been successfully
tested in a 2000
hour salt spray test
conforming to
ASTM B117.*

Download a worksheet from our website and our staff will assist you in the layout of your application.
